

ENR New England Unveils 2024 Best Projects Winners

By [Justin Rice](#)

Boston Logan International Airport Terminal E Modernization won Best airport/transit in the ENR New England Best Projects contest.

August 15, 2024

ENR New England is excited to announce this year's group of regional Best Project winners, with 19 projects awarded in 13 main categories.

In addition to the 2024 main category winners found in the list below, the Best Projects safety and sustainability awardees, which are juried by a separate group of safety and sustainability experts, will be announced next month in the ENR New England free e-newsletter. Finalists for this year's ENR New England Project of the Year will also be announced soon.

To subscribe to the free newsletter click [here](#).

Judges' selection for this year's overall Project of the Year from the Best Project-level winners listed below will be announced in the November issue of ENR New England and at the ENR New England Best Projects awards event. For more information about the Regional Best Projects

event, please visit <https://www.enr.com/enr-best-projects-awards/boston>. This year's winning projects in the main categories—listed at the bottom of this post—will also be profiled in depth in the November print issue of ENR New England. Projects were all located in Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont and Maine.

Projects were evaluated on the ability of the project team to overcome challenges, safety, construction/design quality, and contribution to the industry and the community. Due to the large number of entries, we can only cite a fraction of projects submitted each year, so projects that did not win this year can be submitted next year if they are still eligible!

This year's New England judges for the main categories were Scott Bascom, associate architect at Sasaki, and Aidan Sullivan, assistant project manager at Consigli Construction.

Judges could select any combination of Best Project-level and Award of Merit category winners. In some categories, judges decided not to give an award in a category.

Here's this year's list of winners:

Project Category: Airport/Transit

Regional Award Level: Best Project

Project Name: Boston Logan International Airport Terminal E Modernization

Location: Boston, Massachusetts

Submitted By: AECOM and Suffolk
